

### **Anuloma Viloma Timer *one year world-wide warranty***

Warranty includes free of charge remedy of programming, material and manufacturing defects. Please note that battery, carrying strap and glass are excluded. Damages which occurred due to extraneous causes like falls, beats and water might lead to expiry of warranty claims. These damages as well as damages which occurred after expiry of the warranty period can be repaired at our company on your account.

In order to ensure warranty, the following handling instructions shall be considered:

- Please protect the timer against extreme temperatures, strong electromagnetic fields and chemicals as well as against beats, falling down and mechanical abrasion. Please avoid pushing the keys under water.
- Battery durability is depending on your use habits. In order to ensure the proper functioning of the timer, the battery should be replaced every 1.5 – 2 years. This change can be carried out by every speciality shop for watches. Battery type: CR-2025, 3V, 160 mAh

Please find further information for processing of warranty claims at our homepage: [www.av-timer.com/garantie](http://www.av-timer.com/garantie)
